# GLOWFASE

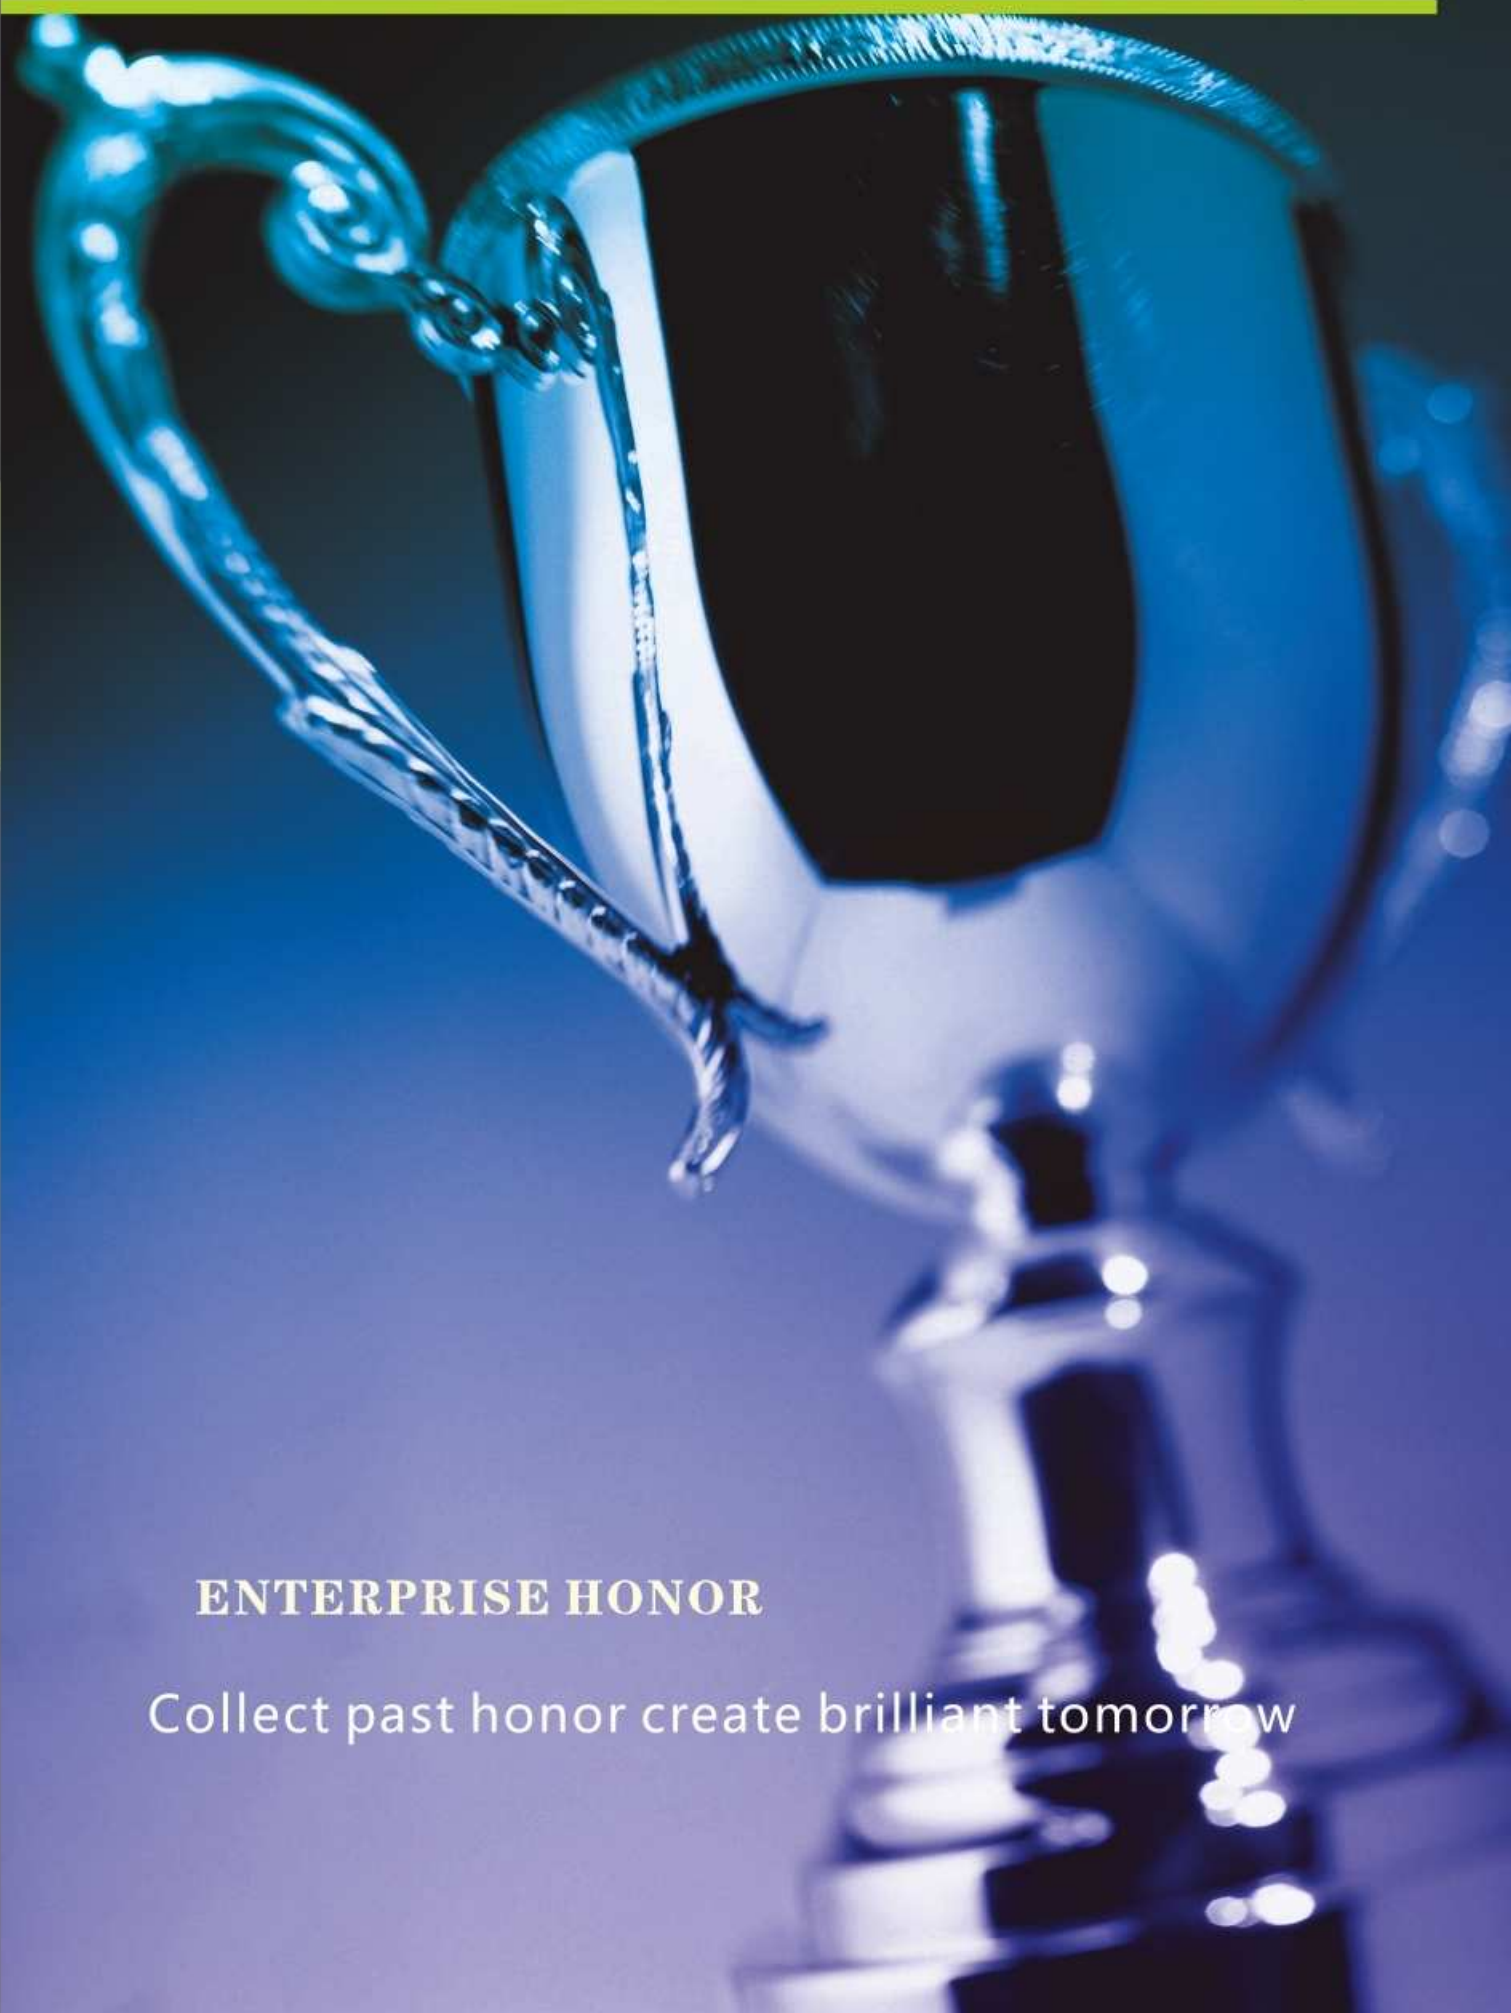

## About Us

Glowfase is taking led lighting beyond illumination with connected led lighting innovations for the home, retail environments, offices, industries, commercial and more.

Glowfase pioneered the development of high-quality, energy-efficient led lighting. We are now taking led lighting into a fully digital world that connects people, places, luminaires, and devices. We foresee a day, in the near future, when all our luminaires and system devices will be digital and network-ready.

Following the employing concept of "People-oriented, quality first, honesty paramount and pragmatic innovation", Glowfase employs the high quality professional talent, aims at the market, relies on the high-tech and tries the best to supply the professional, high efficient and excellent quality product and service for customers.

Glowfase calls up numbers of experienced R&D people, grasps LED lightings' developing direction, updates the products and technics according to the market, leading the development of LED lighting industry all the time. Our cost accounting selects the high grade suppliers according to different needs of customers and the efficient sales team provides the professional and circumspect service to our customers.

### ENTERPRISE HONOR

Collect past honor create brilliant tomorrow

# SLIM PANEL (ROUND)

Aspiring for Better

UPTO **35000** hrs.

## FEATURES

- SLIM PANEL | LASER LGP
- | NO HARMFUL UV/IR
- NO LEAD OR MERCURY
- | HIGH EFFICIENCY
- | BEAM ANGLE 120°

www.glowfase.com

**Warm light: 3000K**  
Apply to need warm light illuminative place, the home decorates general choose warm light mainly, the light of warm color can build warm atmosphere

**White light: 6000K**  
White light, such as the midday sun, has a high level of lumen and display and is widely used

## RECOMMENDED USAGE:

HOME | HOSPITALITY | HOSPITAL | OFFICE | RETAIL | BPO | BANK | SHOWROOM
